

TRUSTED PROVIDER OF HIGH EFFICIENCY, LOW EMISSIONS SOLUTIONS

THE PARTS YOU NEED – IN-STOCK AND READILY AVAILABLE

Waiting on delivery of a part can lead to costly downtime - downtime that can be avoided when you have a reliable parts distributor to cover all of your needs. San Jose Boiler Works maintains the largest inventory of boiler parts, accessories, controls, and other related equipment in Northern California - including hard-to-find parts. We carry parts from all of the major manufacturers, including:

A.O. Smith	Hoffman Specialty	PF Controls Ltd.
Ajax Boiler	Honeywell	PVI
Amtrol	Iron Fireman	QuikWater
Apollo Valves	Kewanee	Raypak
Armstrong International	Kunkle Products	RBI
Bell & Gossett	Laars Heating Systems	Rite Boilers
Bryan Boilers	Lattner	Sussman Electric Boilers
Burks Pumps	Lochinvar	Thermosteam Systems
Cleaver Brooks	Maxitrol	Tjernlund Products
Coen Company	McDonnell & Miller	Watts
Fireye	Metraflex	Webster Engineering
Fulton	Parker Boiler	Weil-McLain
Gordon-Piatt	Patterson-Kelley	Weiss Instruments
Heat-Timer Corporation	Peerless Boilers	Wessels Company

Our parts counter is open from 7:30 a.m. - 4:00 p.m. daily.

PURCHASE, REPAIR OR TEST AT OUR FIRST-RATE PARTS COUNTER

Our in-house parts counter comes with qualified parts technicians that can help you find the parts you need quickly - so you can get your boiler system back to 100% before downtime impedes regular business. As an added convenience, our parts counter is open from 7:30 a.m. to 4 p.m. daily to swiftly accommodate our customers' needs. At the counter, an experienced technician is ready to assist with any required parts purchases or special orders. In addition to helping with purchasing, our qualified staff can also help with troubleshooting boiler and equipment problems as well as repair any salvageable parts. For those that would like to determine if their flame safeguard controls are operating properly and safely, our boiler simulators can also be utilized to perform in-house testing.
